Winter Road Safety

As the weather changes Police Scotland would like to provide the following tips to motorists:

Check your vehicle is ready for winter.

- Ensure tyres have enough tread
- Ensure Brakes are in a good condition
- Ensure windscreen are clean and free of ice and snow
- Ensure wiper blades are working
- Ensure lights are working
- Top up windscreen washer fluid
- Ensure you have a scraper for ice and frost

Driver Safety

- Drive to the conditions
- Accelerate and brake gently
- Keep a safe distance from other vehicles
- Be careful overtaking vehicles spreading grit
- Avoid sudden braking and brake progressively before bends
- Check your grip on the road by gently breaking in a safe place

General Agenda

Community Resilience Planning	NCR for Community Councils	17/01/2024	<p>Rose shared an update on our resilience planning. There is a draft funding request that will be submitted National Centre for Resilience Community Councils</p> <p><https://www.gla.ac.uk/research/az/ncr/howtoworkwithus/#applyforfunding></p> <p>Open to: Scottish Community Councils</p> <p>Grant Amount: £500</p> <p>Application Deadline: 31st January 2024 (£600 of MBLCC money was approved at the meeting to be used for matched funding) for a Resilience Event as part of our Community communication plan).</p> <p>This comprehensive funding request application covers all aspects of resilience – flooding, winds, extreme snow, ice, power outages . This will allow for further funding requests to be investigated for equipment identified in the Resilience plan (e.g generators for community halls, pumps, sandbags).</p>
--------------------------------------	----------------------------	------------	---

		20/03/2024	<p>An application has been made to the National Centre for Resilience fund for £500. This will allow us to fund the costs of undertaking a consultation with the local communities to understand their needs. It will also help us to formulate a plan and identify other projects that we can apply for funding for.</p> <ul style="list-style-type: none"> - Identify Community groups and hold working sessions with them to understand their needs/ where they could be part of the Resilience plan - Identify Community members who could be part of a Resilience Group
		15/05/2024	<p>To give our resilience planning efforts a boost, we are pleased to announce that we have been successful in securing a modest but important grant of £500 from the National Centre for resilience. To obtain this, we put together a plan to encourage community participation in developing a resilience plan. Our intention is that with a plan, we will be in a position to make further bids for capital funding to help support the purchase of equipment and upgrades which would enable the community to support each other during a range of events including floods, major snow, storm damage, etc. We will now start to roll out our community outreach plan and seek to get further involvement from residents in our area. We would be grateful to hear from volunteers who would be willing to participate and help shape the plans.</p> <p>£500 grant approved – fill in the banking form to receive funding</p>
		18/09/2024	Form completed. Next step is to ask people if they would like to be involved in a small focus group. ACTION Rose to start this
		25/11/2024	No update
	Angus Council Community Resilience Fund	25/11/2024	Funding requests completed for Angus Council Community Resilience Fund 2024-2025 – both for Community Resilience and Community Flood Protection Fund
	SSE	17/01/2024	Rose did speak to SSE in 2023 who pointed us to their website and a community grant scheme once we have a resilience plan in place.
	Site Visits	17/01/2024	Hong suggested we setup site visits for the areas that were flooded with Angus Council/Scottish Flood Forum/Farmers as a good starting point for what could be done to help prevent/deal with flooding. A member of the public with SEPA Experience informed us that Farmers need a license from SEPA to allow dredging of burns now.
		25/01/2024	Scottish Flood Forum visiting on 5 th December 2024 to walk around the flooded areas with us.

Resilience Event	17/01/2024	<p>MBLCC plan to host a public resilience event with various emergency responders such as Scottish Power, Scottish Flood Forum, Fire brigade, Police. Explains to households what they might want to put into place themselves (Household resilience); Possibly do DeFib awareness talk ; Perhaps some CPR training. Jennifer Anderson from the Angus Council Resilience team suggested a Saturday morning in March with some refreshments and some fun things for children to do. Once there is an agreed date with a quorum of attendees this information will be shared as widely as possible and start asking what Volunteers could bring to a allow us to create a Skills/Assets Register.</p> <ul style="list-style-type: none"> - At this event we may look for Volunteers to work with the CC on a Community Resilience Team - It would be useful if the community were able to point out areas at risk on a map at the event (e.g. which public roads were flooded (and where) along with private properties that were also flooded.
	20/03/2024	<p>This was replaced by the Flood Mobile. This event was organised in collaboration with Angus Council and was noted as being very well attended today.</p> <p>Based on the discussions that were had one of the next steps is to work with the Scottish Flood Forum on our flood map. They will help us to translate our sketch information into a digital map that we can share with SEPA, and it may lead to the identification of other actions that can be taken to alleviate local issues. RJ to action sketch flood map and pass to Scottish Flood Forum.</p> <p>Much was said of the impact of farming in the area. RJ will discuss with some local farmers to understand what they can and cannot do, and the regulations that they work under (e.g. SEPA). RJ will report back at the next meeting.</p>
	15/05/2024	<p>At the last meeting we took notes of areas that were hit during recent spates of flooding. We further followed this up with a Facebook post seeking more information from the Community. This was met with an enthusiastic response and all the data was recorded on a map which has been sent to the Scottish Flood Forum. This is an organisation that supports communities at risk from flooding. They have advised that they will help us to digitise this information and we hope to be able to use this to inform future resilience plans.</p> <p>In addition to this, there has been much discussion in many of the meetings regarding the management of farm land in our area, the management of waterways, the roles of SEPA and famers, and whether this could have had a detrimental effect and exacerbate the flooding that we saw in 2023. Rose has spent some time with local farmers to understand the responsibilities of the farmers, the regulations that they are working under and their approach to land management. This has been an interesting exercise and Rose will seek to share</p>

			relevant information at the next meeting and through our resilience planning project.

		'I have a concern regarding the traffic lights on the junction of Edward place at the corner of tiddlywinks nursery in muirhead. At least once a week whilst going to and from the nursery with my son, traffic will not stop when the lights turn red for us to cross, resulting in me and my son having to stop in the middle of the road to dodge traffic or being unable to cross until I am sure that the traffic has come to a complete stop both ways. As the lights are so close to the junction it appears difficult to see the change in the lights depending on where the traffic is coming from and drivers go straight through the lights. Many times I've had drivers signal toe whilst I've been stood in the middle of the road when the green man is on as if we are in the wrong for crossing. I'm very worried there is going to be some sort of serious accident here. A number of other members of the village have also posted this concern on the community Facebook page. Can this be discussed in hopes that something can be done to resolve this issue? Many thanks.'
		Would traffic calming help? Keith to request a site visit if Traffic attend Success for Sidlaw meeting

Planning	NPF4 Update	15/11/2023 17/01/2024 18/09/2024 25/11/2024	MBLCC have responded to Angus Council's call for interest in participating in the creation of a local area development plan. Members are reminded that the minutes of July 2023 explain the importance of the new National Planning Framework 4 (NPF4) and how this feeds into our ability to have a greater influence on shaping the MBLCC built environment. Rose working with the planning officer to provide the MBLCC input in greater detail Still WIP No update
	New Football stadium at Camperdown Park	17/07/2024	MBLCC attendees may be interested in an update on the creation of a new football stadium, crematorium, housing and hotel etc at land to the south of Camperdown Park sits beyond our area but neighbours us. Unlike Angus Council, Dundee City Council planning do not publish comments therefore it's not possible to determine the feelings of the public and there is no determination date set as yet either. At this time, comments cannot be submitted and it would appear that it is being 'called in' to the Planning Committee (which is normal for a development of this size and scale).
