<b>Chart 4</b> - Rate of patients admitted to hospital as an emergency due to a fall per 1,000 (65+)	Page 12
<b>Chart 5</b> - Number of days people aged 75+ spend in hospital when they are ready to be discharged per 1,000	Page 13

# National Indicators (Qualitative)

- Integration Authorities have been required by legislation to report on the Core Suite of Integration Indicators within their Annual Performance Reports since 2016/17. The indicators were developed in consultation with a wide range of stakeholders and are intended for consideration within the wider context of health and social care.
- Indicators 1-9 are reported from a biennial national survey (Health and Care Experience Survey) – therefore short-term trends are not available.
- Longer-term longitudinal trends are also not available due to changes in survey methodology since 2015/16. RAG status is a comparison to national averages.

# National Indicators (Qualitative) cont.

Table below shows the national indicators grouped by how Angus performs relative to the national average

Angus Performance	RAG	Indicators
Better than the national average	Green	<ul style="list-style-type: none"> <li>Percentage of adults able to look after their health very well or quite well (NI 1)</li> <li>Percentage of adults supported at home who agree that they are supported to live as independently as possible (NI 2)</li> <li>Percentage of adults supported at home who agree that they had a say in how their help, care or support was provided (NI 3)</li> <li>Percentage of adults supported at home who agree that their health and social care services seemed to be well co-ordinated (NI 4)</li> <li>Percentage of adults supported at home who agree that their services and support had an impact in improving or maintaining their quality of life (NI 7)</li> <li>Percentage of carers who feel supported to continue in their caring role (NI 8)</li> </ul>
Equal to or within 5% of the national average	Amber	<ul style="list-style-type: none"> <li>Percentage of adults receiving any care or support who rate it as excellent or good (NI 5)</li> <li>Percentage of adults supported at home who agree they felt safe (NI 9)</li> </ul>
Worse (more than 5%) than the national average	Red	<ul style="list-style-type: none"> <li>Percentage of people with positive experience of care at their GP practice (NI 6)</li> </ul>
